

Second Starts Inc., an entirely volunteer organization established in August 2002, addresses the household start-up needs of families and individuals in housing crisis in Marion County. We partner with other social service agencies to provide this basic assistance.

One of the most pressing needs when families and individuals begin to rebuild is to obtain everything from plates and utensils to linens and cleaning supplies. While several agencies act as a source for furniture, appliances and clothing, few provide necessary small housewares free of charge.

Second Starts accepts donations of new or gently used items. All items are inventoried at our storage facility and delivered to a family's home when their caseworker submits a request.

Log on to our web site, www.secondstarts.org, to find a complete list of items.

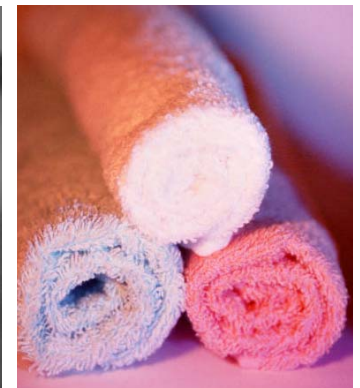

Volunteers are the heart of our organization. We continue to need volunteers to:

- Pick up donations
- Inventory items
- Make deliveries
- Provide office support

Your monetary contributions are used to supplement our inventory when donations are not enough. It is also used for mileage, insurance and phone expenses.

With your donated housewares and linens, we can save \$300-\$400 for a family getting a Second Start.

Second Starts Inc. is incorporated in the state of Indiana as a not-for-profit corporation and is recognized by the Internal Revenue Service as a 501.c.(3) charity.

Please help us to make a difference in our local community.

SECOND STARTS

Our mission is to supply basic housewares, without cost, to qualified families and individuals who have been homeless and who are now ready for a Second Start at independent living.
